Avoid Becoming A Victim

Message from Sheriff John Cooke

Dear Citizens;

Every year Weld County experiences seasonal variation in personal activities. Summertime brings more opportunities for outdoor activities such as bicycling, cookouts, and playing in the park. These activities are often so enjoyable that they create distraction that may lead to more opportunity for personal property loss. Every year, in the summer, the

Weld County Sheriff's Office receives an increased number of reports of Vandalism, Burglary, Stolen Vehicles, and Property Stolen from Vehicles. Here are some quick, simple, and easy preventative measures you can take to reduce your likelihood of becoming a victim of these crimes.

Lock your car and house doors

Nationwide programs have proven that the simple act of locking your household doors and car doors is the #1 deterrent for thieves

Move your property into a safe place

Putting bicycles, outdoor equipment, and portable items into safe places such as your garage can prevent their theft.

Improve your outdoor lighting

Vandals and burglars dislike well-lit areas. Make your surroundings as unpleasant as possible for those up to no-good.

Cut the bushes around your house

In follow up studies with burglars, they often state that overgrown bushes and hedges provided good cover for their illegal activities.

Be aware of who is outside between dinnertime and dawn

Get to know your neighbors, your neighborhood youths, and the people who "belong" in your neighborhood. Look out your window while watching evening TV, pay attention to that car alarm that goes off, and in general *be involved* in the goings on in your neighborhood.

There has been an increase in seasonal crime in your area. If you see any suspicious activity, *take action*, call 911.

One recent crime study reported that the greatest factor in reducing crime in residential areas was a "nosey neighbor", "that person who is always looking out the window to see what was going on". Be that nosey neighbor and you could be living the safest neighborhood in Weld County!

Help us help you, take a few seconds to safeguard Weld County.
