M. OTHER INFORMATION: Describe in detail the proposed use and type of construction, dimension, square footage and materials:

*****NOTICE*****

It shall be unlawful to erect, construct, reconstruct, alter, add to or change the use of any building or other structure, including surface and subsurface structures, or to move a structure from one (1) property to another within the town without first obtaining a building permit from the building inspector or his or her authorized representative.

The applicant, his agents and employees shall comply with all the rules, restrictions and requirements of the Town and Building Codes governing location, construction and erection of the above proposed work for which the permit is granted. The Town or its agents are authorized to order the immediate cessation of construction at any time a violation of the codes or regulations appears to have occurred. Violation of any of the codes or regulations applicable may result in the revocation of this permit.

Buildings MUST conform with plans, as submitted to the Town. Any changes of plans or layout must be approved prior to the changes being made. Any change in the use or occupancy of the building or structure must be approved prior to proceeding with construction.

The applicant is required to call for inspections at various stages of the construction, and in accordance with the aforesaid rule, the applicant shall give the building inspector no less than one day's notice to perform such activities. In the event construction is not commenced within 180 days of issuance of this permit, then the same is automatically void. Cessation of work for a period of 180 continuous days shall also cause this permit to be void. Permits are not transferable.

Signature of Property Owner:**Date:**
